Sponsored

Here is a useful list of ~~40+~~ **250+** companies supplying heirloom / non-GMO / organic seeds. If health is wealth, then this page is solid gold! 😊 Please share this important information. If you have any additions or corrections for this list, please let us know! We welcome genuine suppliers based anywhere in the world. Let's make this the biggest and best list we can!

****UPDATE**** This page has proven to be massively popular...! Recommendations for more heirloom seed companies to add have been pouring in. We started with 40 but now have **over 250** heirloom seed suppliers from all around the world – and the sheer diversity of undiscovered plant varieties we now link to is turning this page into a real treasure trove! Please continue to send more heirloom / organic / non-GMO seed suppliers to biosphere@off-grid.info, we are gathering them up and will add them to this page as soon as we can. Thanks so much to all for your contributions and for spreading the word! <3

Note – this page is COPYRIGHT. It was a ton of work to put together and is getting ripped off left, right and center. You are welcome to post our link on social media but stealing our content and posting it on your own website? Don't do that, obviously. We are currently negotiating legal action to combat the massive theft of our content, thieves got away with it for a while but the hammer is coming down now. You have been warned!
